

## HKUST CLIMATE ADAPTATION & RESILIENCE CONFERENCE (CARE2022) 10 Dec 2022 | SCIENCE TO POLICY DAY

### AFTERNOON WORKSHOP A

#### Major Government Plans:

#### Reflecting on Climate Change Policies, Adaptation & Mitigation, Risk & Finance

This workshop combines a range of climate adaptation, mitigation and finance issues that are seldom discussed together although they are closely related. After the government presents how it is taking decarbonization and adaptation into account in its major development plan, other presenters are grouped to highlight specific design, infrastructure and technology issues, as well as on data, financial risk and financing of the climate change challenge. Speakers will make short presentations to raise the most relevant matters, which will be followed by extensive deliberation with in-person participants who wish to comment and raise questions.

| Time  | Contents  |
|-------|---|
| 14:00 | <p><b>SETTING THE STAGE (by Workshop Moderator)</b></p> <p><b>Prof. Christine LOH</b>, SBS, JP, OBE, Chief Development Strategist, HKUST Institute for the Environment</p>  |
